# WELCOME TO PANIER DES SENS

*20 years ago, we became  
actively committed in promoting  
natural, responsible beauty.*

As a forerunner on the natural cosmetics market, we strive our utmost to offer products and packaging that will forevermore be respectful to our planet and our consumers.

Innovation is at the very heart of our commitments. Our formulas comply with strict formulation charters and all our face and body cosmetics contain between 95 % and 100 % ingredients of natural origin. This year, we've completely redesigned our best-loved Timeless collection, which now features products that are even more high-tech, more natural and continue to pursue our eco-design goal. As protecting our natural heritage is a major concern for us, we've chosen to extend recycled and recyclable packaging as much as possible, to further promote eco-friendly refills and zero-waste.

To celebrate our 20th anniversary, we're placing the spotlight on our three iconic Provence fragrances through Limited Editions: imagined, hand-in-hand, with the International Perfume Museum in Grasse.

Finally, and most importantly, we're celebrating 20 years of collective ambition. We're proud to see our distribution network getting stronger and growing every day.

Thank you for your loyalty and for standing by us.

# ACTIVELY-COMMITTED, RESPONSIBLE NATURAL BEAUTY

## THE BRAND BORN IN PROVENCE

Since 2001, Panier des Sens has been writing its history deep in the heart of Provence and draws its inspiration from Mediterranean ingredients and know-how to create fragrances as well as ranges of natural care products.

## NATURAL COSMETICS KNOW-HOW

Panier des Sens has been developing its product expertise for more than 20 years, building on the incomparable know-how of Marseille's master soapmakers and Grasse's perfumers. We pursue our philosophy and our deep commitment for cleaner, more sustainable cosmetics by developing our natural formulas, imagined and manufactured in France, through the promotion of short circuits.

## SUSTAINABLE AGRICULTURE

Provence is at the heart of Panier des Sens. With the utmost stringency and a desire to protect our heritage, we select the best regional producers through sustainable partnerships.

Our commitment respects the intrinsic essence of nature and to extract the best active ingredients and ensure the irreproachable quality of our products.

## VEGAN FRIENDLY

Our plant and mineral-origin ingredients, as well as our formulas are never tested on animals, as per European regulations. All our ranges are vegan friendly except the Honey collection and some of our lip balms that contain ingredients from beehives.

## NATURAL COSMETIC

Our formulas, enriched with raw materials of natural origin, have been clean for over 10 years. They comply with a stringent formulation charter. Our face and body cosmetics contain between 95 % and 100 % natural ingredients.

## MADE IN FRANCE

Our authentic care products, packed full of the goodness of Provence, are inspired, imagined, manufactured and packaged using short circuits ensuring enhanced traceability.

## FRAGRANCE FROM GRASSE

All our fragrances are created by master perfumers in Grasse, birthplace of the world's Fine Perfumery, where their perfume-related know-how has been listed as Intangible Cultural Heritage of Humanity by UNESCO. With exceptional natural raw materials, they are exclusive to the brand.

## ECO DESIGN

We systematically ensure our products are recycled and we prioritise natural, recycled materials. Our packaging, as well as our communication media, are supported by independent certification bodies offering a guarantee as to the origin of the raw materials and the manufacturing processes.

The packaging used for our best-selling products, i.e. 26 % of sales, is 100 % recycled and recyclable, i.e. 20.5 tons less of virgin plastic used and 80 % of aluminum recycled per year!

# BEHIND THE LABEL

---

## RESPECTING THE ESSENCE OF PLANT MATERIAL

Our charter of formulation combines nature and research to offer the best efficiency and sensation to the skin.

Our organic plant-inspired collections draw on the intelligence of nature to innovate sustainably whilst combining naturalness with beauty.

## CREATING FORMULAS THAT ARE INCREASINGLY CLEANER FOR CONSUMERS AND THE ENVIRONMENT

As precursors of naturalness, we communicate openly about our formulas.

Our dermatologically-tested cosmetic formulas are clean. As such, if ever there is the slightest doubt about an ingredient which may be endocrine-disrupting or not very biodegradable, it is systematically removed from our formulation charter.

This is done so as to offer formulas which are evermore respectful of our skin and our planet. This ongoing monitoring enables us to regularly review the composition of existing products and constantly renew our product catalog. We are therefore proud to offer you at least 95% ingredients of natural origin in our face and body cosmetics.

## STRIVING FOR TOTAL TRANSPARENCY

For some natural raw materials from developing markets, whose production is not always very transparent, we must guarantee sustainable and responsible supply chains in line with the values of our brand and our products. In 2021 we were therefore granted RSPO (Roundtable on Sustainable Palm Oil) certification for all our solid soaps. The palm oil produced, processed and used in our creations meets very specific CSR and sustainable development requirements and volumes can be traced throughout the supply chain.

# OUR ENVIRONMENTAL AND SOCIAL INITIATIVES

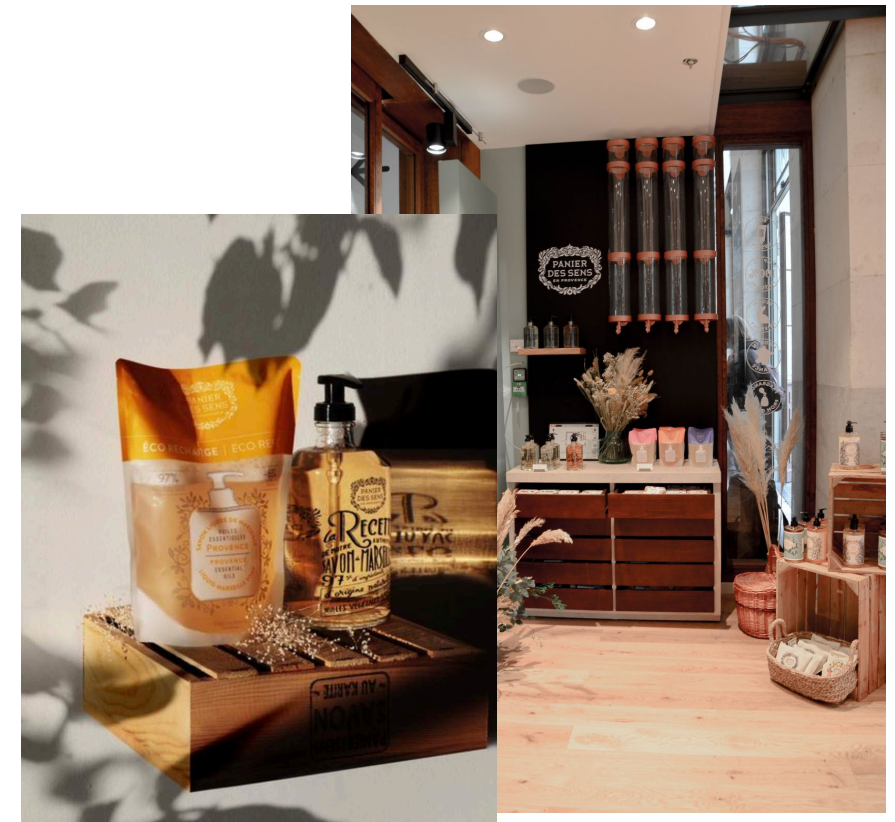

*We pursue our eco-responsible approach with continued ambition and genuine concern for protecting the environment.*

## BULK SALES

In 2016, our concept of bulk-selling liquid soap was created in our first store in Aix-en-Provence. This refill system offers bottles a second life and limits domestic waste. It was then rolled out in other points-of-sale in Paris (Opera and Gare de Lyon) and, this year, we enhanced our offer with bulk sales of shower gel!

## ECO-FRIENDLY REFILLS

Panier des Sens presents its refillable collector glass bottle for liquid soap along with 6 liquid soap refills. Using an eco-friendly refill is a real helping hand for the environment that reduces the use of plastic by 65%, CO2 emissions by 36% and greenhouse gases by 39% compared to using an original bottle.

In 2020, we joined the **1% for the Planet association**, an international movement of entrepreneurs engaged in a new economy, which is more respectful of people and the planet. As such, we donate 1% of revenue from our Green collection (eco-friendly refills) to partner with environmental protection organizations.

The Conservatoire d'espaces naturels (PACA) protects the great diversity of landscapes, natural environments, animals and plants in the region by developing national action plans and programmes to protect endangered species.

France Nature Environnement Provence-Alpes-Côte d'Azur brings together virtually 300 associations for the protection of nature and the environment. Its mission is to ensure community expertise is voiced to public authorities, to be a source of proposals for a greener environment and to call public attention whenever the environment is threatened.

### RECYCLED AND RECYCLABLE PACKAGING

We ensure we reduce our environmental foot-print through our eco-design packaging and life cycle. In 2021, the packaging of our best-selling products, i.e. 500ml liquid Marseille soaps and 75ml hand creams, which were already recyclable, are now 100% recycled. This year, the amount of our recyclable and recycled packaging across all our collections will increase significantly.

*That's. 20.5 tons of virgin plastic saved and 80% of recycled aluminum per year!*

### MOVING TOWARDS ZERO-WASTE CONSUMPTION

Cost-effective, eco-friendly and natural – Our solid soaps contain between 95% and 99% ingredients of natural origin, can be kept for a long time and produce (virtually) no waste!

All our solid soaps are RSPO-certified (Roundtable on Sustainable Palm Oil). The palm oil produced, processed and used in their creation meets very specific Corporate Social Responsibility and Sustainable Development requirements and can be traced throughout the supply chain.

This year, three new shampoo bars enter our catalog!

### PROMOTING BIODIVERSITY

We have given our CSR policy a great new boost by developing a 3,000 m<sup>2</sup> permaculture garden outside our premises located right in the middle of Marseille. Key raw materials used in the composition of Panier des Sens' formulas, such as olive, almond and grape, are planted there, along with rare species endemic to Provence, such as aromatic and fragrant plants.

This one-of-a-kind ecosystem, autonomously managed, thanks to a rainwater recovery system, was imagined to make this space a home for cultivated biodiversity and an oasis of friendship and wellness.

The key purpose of this participatory project is to improve our employees' working environment and, at the same time, raise awareness to environmental and climate issues.

### OUR SOCIETAL INITIATIVES

For over 10 years now, our gift boxes and sets have been put together in ESATs (French vocational rehabilitation centers). Vocational rehabilitation centers are establishments that enable people with disabilities to exercise a professional activity while benefiting from medical, social and educational support in a protected environment.

In addition to contributing to the solidarity-based economy, we organize get-togethers between people who have been working for Panier des Sens for years in ESATs and our employees. These occasions for discussing and sharing are also opportunities for making our employees aware about tackling exclusion.

# OUR DISTRIBUTION

---

*In Paris, Aix-en-Provence  
or Seoul, Shanghai  
and Hong Kong,  
the Panier des Sens stores  
awaken the senses.*

Thanks to you, Panier des Sens is growing, with increasingly selective distribution and a network of its own stores ensuring the brand's reputation and visibility.

A true sensory voyage, the Panier des Sens stores are inspired by the herbalists of Provence, illustrating our philosophy as a trader and grower and featuring authentic and elegant apothecary furniture. In Paris, Aix-en-Provence or Seoul, Shanghai and Hong Kong, the Panier des Sens stores awaken the senses.

## **GARE DE LYON**

Panier des Sens thinks big and has now opened its 5th store in France inside the Gare de Lyon train station in Paris. A 66 m<sup>2</sup> flagship store between Halls 1 and 2, in the Fresco Gallery that has just reopened after 8 years of renovation. An amazing showcase that thousands of commuters pass through every day.

## ACTIVE FIRMING CREAM

PRODUCT INNOVATION

### PROVEN EFFECTIVENESS

- Skin firmness: **+14,8%\***
- Fatty deposits: **-17,4%\*\***
- **95%** Long-lasting hydration\*\*\*

This moisturizing body cream helps to firm the skin and reduce the orange-peel skin effect. Skin feels supple, firmer and more elastic. Its non-greasy, sculpting gel-cream texture, with its fresh, vibrant, tangy scented notes that linger on the skin, ensures you can get dressed quickly after use.

#### USAGE ADVICE

Apply morning and night to dry clean skin. Use upward strokes until fully absorbed to encourage microcirculation. For a more intense cooling sensation and a tightening effect upon application, place tube in fridge before use. Use on its own or with the Ultra-Active Smoothing Oil.

### NEW FOR 2022 DEODORANT REFILL

Panier des Sens packs all the nourishing, soothing and softening power of organic olive oil from Provence into its first skincare range for men.

This year, this eco-designed collection is enhanced with a refill for the 100% natural deodorant.

*L'Olivier combines the nourishing, soothing power of organic olive oil from Provence with a unique blend of active ingredients to offer naturalness and effectiveness.*

#### NUTRITION

##### ORGANIC PDO OLIVE OIL FROM PROVENCE

Olive oil from Provence, which is the pride and joy of this region, is an ancestral beauty secret used since ancient times for its nourishing, protective and antioxidant properties. It helps regulate skin moisturization by boosting the hydrolipidic film.

The 100% organic PDO olive oil used in the L'Olivier range is grown and harvested in Valensole, in Haute Provence, in France.

#### ENERGY

##### ORGANIC PRICKLY PEAR

An essential active ingredient for skin and hair care. It tackles skin dehydration by boosting the hydrolipidic film and makes hair shiny and bouncy.

##### PROTECTION AGAINST ATMOSPHERIC POLLUTION GLYCOFILM POLLUSTOP

This anti-pollution active ingredient provides 30% more protection against carbon particles and reduces cellular and mitochondrial toxicity of the different layers of the epidermis by 54%.

#### MOISTURIZATION

##### HYALURONIC ACID

This active cosmetic ingredient is naturally present in the structure of the skin. Its moisturising properties return radiance and softness to the skin. It captures and holds water molecules in the upper layers of the epidermis, leaving the skin taut and plump, making it effective against signs of ageing.

#### ABSORPTION

##### BAMBOO POWDER

Bamboo powder contains silica and is an excellent natural absorbent. It's a can't-do-without active ingredient for keeping skin fresh and protected all day long.

#### SHINE

##### WHEAT PROTEIN

Rich in natural keratin, wheat protein nourishes and strengthens hair. The hair becomes soft, smooth, shiny and easy to style.

#### STRENGTH

##### NETTLE EXTRACT

With its naturally high concentration of vitamins and minerals, this fortifying and beautifying hair product encourages hair growth. It tones the scalp and fights dandruff. It is also a great purifying agent as it helps regulate sebum production in greasy hair.

#### COMFORT

##### ORGANIC ALOE VERA

The aloe vera leaf contains a gel rich in trace elements, sugars, vitamins and amino acids. When ground into a powder, it soothes the skin while helping it maintain a good level of hydration.

## Radiant Peony Hydration & Radiance

NATURAL  
98% TO 100%  
ORIGIN

*The Radiant Peony collection combines naturality and efficiency for deep hydration and a radiant complexion. Each product is made of a combination of active ingredients.*

### **BRIGHTENS FRENCH PEONY EXTRACT**

Grown and harvested in France, this antioxidant active ingredient softens and restructures the skin. It tackles skin aging at a cellular level.

### **NOURISHES ROSE OIL**

As it is rich in linoleic acid, vitamin A and fatty acids, it nourishes and protects the skin and tackles skin aging through its antioxidant properties.

### **MOISTURIZES HYALURONIC ACID**

Naturally present in the skin, Hyaluronic Acid hydrates deeply. Firming and smoothing, this exceptional anti-aging ingredient restores skin suppleness and youth. Its plumping effect reduces the appearance of wrinkles and fills in fine lines.

### **SOOTHES ROSE WATER**

Its moisturizing and soothing properties tackle aging.

### **TESTED UNDER DERMATOLOGICAL CONTROL**

The formulas, dermatologically tested, are tested clinically and are suitable for pregnant and breastfeeding women.

### **RESTORES RADIANCE PINK CLAY**

Rich in minerals and trace elements, pink clay is reputed for its purifying and detoxifying properties. It re-balances and re-mineralizes the skin, diminishes lines and restores radiance to the complexion.

### **SOOTHES CORNFLOWER WATER**

Perfect for eye care, has a soothing and anti-inflammatory effect that helps to reduce redness and signs of fatigue.

A collection of 5 sublime skincare products

**ULTRA RICH FACE CREAM**  
TESTED UNDER  
DERMATOLOGICAL CONTROL\*

- **95 %** of women find their skin brighter after 7 days.
- **100 %** 100% of women find their skin hydrated and regenerated.

\*Clinical tests performed on 20 women for 21 days.

**SKIN PERFECTOR SERUM**  
TESTED UNDER  
DERMATOLOGICAL CONTROL\*

- **100 %** of women find their skin hydrated, revitalized and smoothed.
- **100%** of women find their complexion brightened and more radiant.
- **95 %** of women find their skin texture refined.

\*Clinical tests performed on 20 women for 21 days.

**1. REMOVE MAKEUP**  
**MICELLAR WATER**

Crystalline lotion, this water removes makeup in a single gesture on the face and the eyes. It removes the skin from impurities and traces of makeup from the skin.

**2. PURIFY**  
**CLEANSING FOAM**

A light but rich mousse, infused in floral water. It cleans gently and effectively.

**3. GLOW BOOSTER**  
**SKIN PERFECTOR SERUM**

This oil serum is ultra-concentrated. It moisturizes and refines the skin texture, evening out the complexion for immediate results and long-term benefits.

**HOW TO USE**  
*Apply 2 drops in the morning and/or at night before your skincare cream. Massage gently. This serum works with your daily care products to ensure radiant, glowing skin.*

**4. MOISTURIZE**  
**LIGHT FACE CREAM**

This fluid melts as it is applied, penetrating quickly and moisturizes the skin for 48 hours.

**ULTRA RICH FACE CREAM**  
Rich and velvety, it ensures intense hydration for 48 hours, revives the radiance of the complexion, regenerates and smoothes the skin texture.

Panier des Sens celebrates the Grasse perfumery and its traditional skills, with a new collection based on Absolute perfumes. Genuine high-end perfumery gem, an Absolute is the most precious oil of the vegetable raw material. Absolutes are highly concentrated fragrant natural vegetable extracts, produced through the cold extraction of fragrant molecules from the plant.

Panier des Sens celebrates its 20<sup>th</sup> anniversary and reveals our limited edition gift tin created in collaboration with the Musée International de la Parfumerie. A collection of 3 Eau de Toilettes with Absolute Perfumes of Rose Geranium, Precious Jasmine and Orange Blossom, emblematic of Provence, decorated by the illustrator from Marseille, Stéphan Muntaner.

### MAIN ACTIVE INGREDIENT: OLIVE OIL

One of the region's emblematic raw materials, has been chosen as a key ingredient for each formula in order to protect and nourish the skin.

# ORANGE BLOSSOM

## ABSOLUTE PERFUMERY & BODYCARE

Emblematic of Provence, the Orange Blossom is one of the most iconic raw materials of the Grasse high perfumery. Gathered at the beginning of spring, it spreads a unique sunny and enchanting trail. Its citrus freshness reflects the Mediterranean brightness.

# PRECIOUS JASMINE

## ABSOLUTE PERFUMERY & BODYCARE

The small delicate blossoms of Jasmin Grandiflorum were already used in the 16<sup>th</sup> century by the very first master glove-maker perfumers of Grasse. Very quickly, this veritable plant gem became an essential element of perfumers' palettes and found itself in the heart of Grasse horticulture. On the skin, it leaves a harmony of sensual white flowers that sparkling and radiate fresh notes.

# ROSE GERANIUM

PANIER DES SENS

## ABSOLUTE PERFUMERY & BODYCARE

Used in perfumery for its unique aromatic properties, the Pelargonium Graveolens is particularly delicate, both sweet and strong, very similar to that of Rose, yet distinctive thanks to its green and citrus notes. This floral fragrance is an invitation for enchantment and leaves an incredibly fresh silage on the skin.

# EXTRA-GENTLE VEGETABLE SOAPS

## THE AUTHENTICS

In keeping with traditional perfuming, the quadruple-milled soaps are delicately wrapped in protective presentation paper to preserve all of their freshness. Their natural plant base, combined with a soft, delicately perfumed foam, will leave your skin as smooth as velvet. This is an extremely gentle soap, with fatty acids providing better compatibility with your skin while preserving all the cleansing power of soap.
